Project Title: Detection of Brain Tumour using Deep Learning

Contribution	Name of the Team Member
1. Data collection Collected the MRI scan images from available online public sources.	Madhushalini
2. Data preprocessing Preprocessed all the available images and data acquired.	Pavan Reddy
3. Data Analysis Analyzed all the available images and data.	Vikas Reddy
4. Explored all the available deep learning techniques for images classification.	Vikas Reddy
5. Code Implementation We have implemented the deep learning convolutional neural networks (CNNs) model using Keras.	Madhushalini
6. Code improvement. Implemented data augmentation to improve the training data.	Vikas Reddy
7. Evaluated the model robustness by conducting the experiments.	Pavan Reddy
8. Documentation	Madhushalini, Vikas Reddy, Pavan Reddy
9. PowerPoint presentation	Madhushalini, Vikas Reddy, Pavan Reddy
